Specifications

Bullet-shaped cylinder with dished end, constructed from open-cell polyurethane foam with a high-grade abrasion and chemical resistant polyurethane elastomer coating and abrasive steel wirebrushes or plastic bristles applied in single spiral or total coverage design.

Applications

Used for light, regular and heavy-duty scraping and cleaning of lines in the oil and gas, municipality, mining, food and beverage, chemical and petrochemical, cosmetic and pharmaceutical, and other various processing industries.

Options

2 pound (models LW, LP), 5 - 7 pound (models MW, MP), and 8 - 10 pound (models HW, HP, TW, TPB) foam density; totally coated; varying coating patterns; varying gauges of wirebrush and plastic bristle; double dish; double nose; pulling rope or cable; transmitter or pinger cavity; magnets; customized diameters and lengths for special pigging applications.
